## Form CRS: Client Relationship Summary

### Item 1: Introduction

Taylor Hoffman Capital Management, LLC (the “Firm”), is an investment adviser registered with the U.S. Securities and Exchange Commission. Investment advisers and broker-dealers offer different services and charge different fees, and it is important for you to understand the differences. Free and simple online tools can help you understand those differences and allow you to research firms and financial professionals at the SEC’s investor education website ([www.investor.gov/CRS](http://www.investor.gov/CRS)). For more information about us, visit [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov).

### Item 2: Relationships and Services

#### What Services Do We Offer?

We offer investment advisory services in the form of discretionary investment management services that are based on our data-driven investment strategy. Our investment management services are not tailored to your specific financial circumstances or needs; therefore, it is up to you to determine if our investment strategy and investment management services are appropriate for you. When we manage your assets on a discretionary basis, we have the authority to make investment decisions and buy and sell securities on your behalf without asking you in advance. Given that our discretionary investment management services are based on our investment strategy, our advice is generally limited to certain types of investments including individual equity and debt securities and options. We are also the sponsor of a private fund called Arrington Fund LP (the “Fund”), comprised of assets from multiple clients, which is managed by our affiliate, Taylor Hoffman Wealth Management. We may recommend an investment in the Fund to you if you are eligible to invest and we believe such an investment would be appropriate for you. We monitor your investments periodically on an ongoing basis, and account reviews are conducted at least once a quarter. We do not impose a minimum account size or minimum fee in order to establish an investment advisory relationship with you. We typically require a minimum investment of \$100,000 for an investment in the Fund, although we can waive or reduce such a minimum amount in our sole discretion. For more information about our services, please review Item 4 of our disclosure brochure, which can be found at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov).

**Conversation Starters:** Here are some additional questions you can ask us to learn more about our services:

- Given my financial situation, should I choose an investment advisory service? Why or why not?
- How will you choose investments to recommend to me?
- What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

### Item 3: Fees, Costs, Conflicts, and Standard of Conduct

#### What fees will I pay?

For our investment management services, the Firm charges you fees based on the amount of assets we manage on your behalf. Note that fee schedules may be tiered if we manage more assets on your behalf. We charge those fees each quarter before services are rendered for the quarter. We will generally deduct our fees directly from your account. The more assets there are in your advisory account, the more you will pay in fees, and the Firm has an incentive to increase the assets we manage or advise on your behalf. If you are an investor in the Fund, we will not charge you a management fee on such assets, but we will earn compensation based on how your investment in the Fund performs, meaning that the better the Fund performs, the higher your fee will be. As a result, a conflict of interest exists, as this arrangement creates an incentive for us to make or recommend investments for the Fund that are riskier or more speculative than would be the case absent such an arrangement. This fee arrangement also creates an incentive for us to recommend an investment in the Fund to you.

In addition to the fees we charge, other firms will also charge you fees and expenses in connection with the services we provide to you, which include securities brokerage commissions; transaction fees; custodial fees;

June 11, 2020

margin costs; deferred sales charges; odd-lot differentials; transfer taxes; wire transfer and electronic fund fees; and other fees and taxes on brokerage accounts and securities transactions. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time.

Please make sure you understand what fees and costs you are paying. For more information about the fees and expenses you could pay in connection with our services, please review Item 5 of our disclosure brochure, which can be found at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov).

**Conversation Starters:** Here are some additional questions you can ask us about our fees:

- Help me understand how your fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

**What are your legal obligations to me when acting as my investment adviser? How else does your firm make money, and what conflicts of interest do you have?**

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. For instance, as noted above, we may earn more compensation for recommending an investment in the Fund, which creates an incentive for us to recommend an investment in the Fund to you.

**Conversation Starters:** Here are some additional questions you can ask us about the conflicts of interest we face:

- How might your conflicts of interest affect me, and how will you address them?

For more information about the conflicts of interest we face when rendering services to you, please visit [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov).

**How do your financial professionals make money?**

We compensate our financial professionals based on a salary and bonuses based on the profitability of the Firm. Our professionals are not directly compensated in any other way pertaining to clients.

**Item 4: Disciplinary History**

**Do You or Your Financial Professionals Have Legal or Disciplinary History?**

No. To learn more about the Firm's investment professionals, please visit the free and simple online search tool available at [www.investor.gov/CRS](http://www.investor.gov/CRS).

**Item 5: Additional Information**

For more information about our services and fees, please visit [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov). To request a copy of our relationship summary, please call us at (804) 414-0200.

**Conversation Starters:** Here are some additional questions you can ask us if you need to reach us:

- Who is my primary contact person? Is he or she a representative of an investment adviser or a broker-dealer?
- Who can I talk to if I have concerns about the Firm or the services I'm receiving?
